**19547**

**2" x 2" x 12" Stick**  
**New LOWER Price!**

These Abrasive Sticks are real money savers! They increase the abrasive life of sanding discs, drums, and mandrels up to 10 times as long! Fast and easy to use. Hold the stick firmly against a moving abrasive belt or disc until all loaded particles are removed, usually just a matter of seconds.

**19546**

**Bench Pad:** This bench-mounted abrasive belt cleaning pad conveniently screws to any bench top, or mounts to a piece of wood that can then be clamped to the bench. Since the cleaning pad is securely fastened, portable sander abrasives can be safely cleaned while holding the tool with both hands. Ideal for portable belt sanders and random orbiting disc sanders. Abrasive pad measures 3" x 3" x 1/2" thick.

**Abrasive Cleaner Handle:** Safety first! Keep fingers far from moving abrasives during cleaning with this abrasive cleaner handle. Holds 2" x 2" abrasive cleaner sticks. (see #19547 above)

**19548**

**19545**

**Sanding Belt Cleaner:** For cleaning sanding belts and discs. Provides great control during abrasive belt cleaning. Pad measures 1 1/2" x 1 1/2" by 4" long. (Not recommended for wide belt sanders)
